Dr. Chart Chiemchaisri is a professor attached to Department of Environmental Engineering, Faculty of Engineering Kasetsart University, Bangkok, Thailand. He received his Bachelor of Engineering degree in Civil Engineering from Chulalongkorn University, Master of Engineering degree in Environmental Engineering from Asian Institute of Technology (AIT) and Doctor of Engineering degree in Urban Engineering from The University of Tokyo. He also obtained his Post Graduate Diploma in Environmental Assessment from Imperial College, University of London. His research experiences are in the areas of biological wastewater treatment with special expertise on membrane bioreactor technology and municipal solid waste landfill gas and leachate treatment for more than 30 years. He has published more than 150 international refereed journal papers to date and currently serving as editors for several international journals, e.g., Journal of Material Cycles and Waste Management, Sustainable Chemistry One World, Agricultural and Natural Resources Journal, ASEAN Engineering Journal.
